

# Classic Shell Scripting Notes

Lu, Phil

## 1.

- POSIX

POSIX Portable Operating System Interface

UNIX

UNIX

Linux

windows

windows

windows

## 2.

### 2.1. #!

```
cat > nursers
#!/bin/bash -
```

```
who | wc -l
```

```
bash py #! /bin/python, ./
```

### 2.2. printf

- printf C

### 2.3.

#### 2.3.1. <

```
tr
translate charactors
```

```
tr -d '0-9'
```

```
tr -d '0-9' < mytext.txt
```

```
txt
```

**2.3.2.** >

**2.3.3.** >>

**2.3.4.** |

```
    program1 | program2
program1    program2
    tr -d '\r' < mytext.txt | sort > mytext2.txt
:
    1. tr    mytext.txt
    2. tr    sort
    3. sort  mytext2.txt
```

**2.3.5.** /dev/null /dev/tty

```
/dev/null
    echo 12321 > /dev/null
/dev/tty    maybe
    read password < /dev/tty
    /dev/tty

    stty -echo

    stty echo
```

**2.4. Shell**

```
$1    $2

    cat > finduser
    #! /bin/sh

    who | grep $1
    ^D

    ./finduser lxc
```

**2.5.**

```
set -x                                +
```

## 2.6. .profile .bashrc

.profile

.bashrc    bash
